

Roddy the Roundworm

(Teladorsagia circumcincta)

- I am bad because I stop sheep from eating and growing
- I am beginning to **fight** against treatment

- I can **grow** to 5 times my original size in 1 week, and 20 times as big in 3 weeks

- I live in the **abomasum**
- I live and feed at the surface of the stomach

- I am Vincent's cousin, but I don't like drinking blood

- I am the same **size** as an eyelash

- **Thousands of us** can happily live in one sheep

- You can find me in **cooler places**, like Scotland
