

## The Moredun Group Environmental Policy

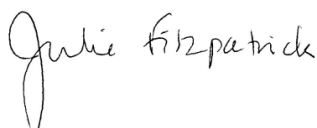

The Moredun Group consists of the following companies; The Moredun Foundation, Moredun Research Institute, Moredun Scientific & Pentlands Science Park and is certified to ISO 14001 the Environmental Management System.

The Moredun Foundation is a registered charity that exists to promote the highest possible standards for animal health and welfare through research and education and is dedicated to the prevention of infectious diseases of livestock and wildlife. The Foundation is head of the following Group of companies and charities based at Pentlands Science Park.

Moredun Research Institute conducts world class scientific research to improve livestock health and welfare through the prevention and control of infectious diseases of livestock and wildlife. Moredun Scientific provides testing services to the animal health, pharmaceutical and biotechnology industries supporting the development, registration and manufacture of medicinal products. Pentlands Science Park Limited administers all the Park's property and facilities management services in such areas as security, engineering, IT, waste disposal, stores, catering and conferencing.

In completing its work, the Moredun Group is committed to;

- prevent pollution and minimize the environmental impact of our activities, products and services
- set and review our environmental objectives regularly at the Environment Policy Advisory Group (EPAG) meetings
- comply with all relevant legislation and regulatory requirements, and other requirements to which it subscribes
- determine the risks and opportunities related to our environmental aspects, compliance obligations and other requirements that need to be addressed to give assurance that the Environmental Management System can achieve its intended outcomes
- evaluate environmental performance by monitoring, reviews and internal audits
- regularly assess and review environmental impacts that its activities may cause and any changes in work activities which affect the environment
- continually improve the Environmental Management System to enhance environmental performance and prevent or reduce undesired effects
- ensure resources are made available to implement and maintain this policy
- reflect the needs and views of customers and stakeholders in developing and delivery of this policy
- communicate this policy to all members of staff, with relevant training provided to increase environmental awareness and reduce pollution throughout the group of companies and charities
- communicating this policy to the public through The Moredun Group website
