Climate Connections: Climate Change Research in Scotland

ECRR Forum

Friday May 13, 2011

SNH Conference Centre, Battleby, Perth

UPDATE: please see below for event report.

Exploring the role that climate-related knowledge networks can play in shaping understanding of and responses to climate change within a rural context, this one-day forum aimed to facilitate conversations between scientists and interest groups.

Output from the forum will be a report that summarises, for Scottish Government and others, activity across research networks. The report will be posted here as soon as it becomes available.

Further information

Please see the archived event page on the Perth College UHI website, which includes a full event programme with links to PDFs of the presentations.
